# My Last Words: Interview Script

Thank you for helping me record this message. Please use the guide below.

---

## INSTRUCTIONS FOR THE INTERVIEWER

- **Positioning:** Sit directly next to or just behind the camera tripod, so the speaker is looking at you, which means they are almost looking at the lens.
- **Selection:** Do not ask every question on this list! Have the speaker highlight 3 to 5 questions they want to answer before you begin.
- **The Golden Rule:** Embrace silence. When they finish answering, wait an extra 3-4 seconds before speaking. They may have a final thought to add, and it makes editing the video much easier.

## Question Bank

*(Speaker: Highlight the questions you wish to answer, or write your own in the blank spaces provided.)*
